Hello Harris Park Families,

On September 25th, 2020, Westminster Public Schools learned that a student at Harris Park tested positive for COVID-19. Federal and state laws protect the student’s privacy at all times. The cohort of students and teachers who were in direct contact with the individual have been identified and contacted; and they will be moved to our remote learning platform for a 14-day quarantine period.

Harris Park will remain open for in-person learning for all other students. Siblings of those students who are in quarantine will still attend in-person learning as they were not in direct contact with the impacted individual.

We are in contact with the Tri-County Health Department and are implementing our response plan. WPS created its plan with the understanding that at some point a student or staff member would test positive.

The 3 W’s of Westminster Public Schools were created to minimize the spread of COVID-19 and it is critically important all students and staff follow the guidelines:

- Wear a Mask
- Wash Your Hands
- Watch Your Distance

It is also important that all of our families monitor the health of all members of their household and make sure that anyone who is feeling ill stays home. If you take your child to get a COVID test, please keep them home until you get the results of that test.
