

Dear Westy Families and Students,

As you all know from my previous email we will be conducting remote learning for all students until September 22nd to alleviate our staffing constraints from our current quarantine situation. Our Westy teachers and staff have prepared for this educational scenario and are ready to begin work with our students tomorrow morning. In order to keep consistency for our students and staff we will follow the current bell schedule that we have been operating and all students are expected to engage in their classes during this time. Tomorrow, Monday, students will receive communication through their Empower accounts and emails from their teachers, for each of their classes, with instructions on how to do this. I appreciate your support for our teachers and staff as they work with our students through this platform.

*All My Best,
Ms. Kiewiet*
